

Is it your vision to become a Pro Driver, or just looking for an exciting weekend hobby? Either way, you'll be looking to cross in front of the checkers first!

This is racing at its best-competitive, challenging, and enjoyable. It's where younger drivers set and achieve goals, develop their driving skills, and learn good sportsmanship. While more advanced drivers learn to fine-tune their Kart's setup and drive on the edge.

One thing is for certain, it's a fun-filled, exciting day for all.
